ANNUAL FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2006

//KHARA HAIS LOCAL MUNICIPALITY

ANNUAL FINANCIAL STATEMENTS

FOR THE YEAR ENDED

30 JUNE 2006

I am responsible for the preparation of these annual financial statements, which are set out on pages 2 to 33, in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowance and benefits of Councillors as disclosed in note 23 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and local Government's determination in accordance with this Act.

1. BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, except for the revaluation of land and buildings, which are carried at fair value

These annual financial statements have been prepared in accordance with Generally Accepted Municipal Accounting Practices (GAMAP) and Generally Recognised Accounting Practice (GRAP). These accounting policies are consistent with those of the previous financial year

he Municipality may have transactions, events or balances that are outside the ambit of the accounting standards referred to above but which are included in Standards of International Public Sector Accounting Standards (IPSAS) issued by the International Federation of Accountants – Public Sector Committee, International Accounting Standards (IAS) issued by the International Accounting Standards Board or Generally Accepted Accounting Practice issued by the South African Accounting Practices Board and the South African Institute of Chartered Accountants' Accounting Practices Committee. The Municipality has not complied with the measurement, recognition and disclosure requirements of those accounting standards.

The principal accounting policies adopted in the preparation of these annual financial statements are set out below

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GAMAP or GRAP.

2. PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand.

3. GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

4. RESERVES

4.1 Government Grant Reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus/(deficit) to the Government Grants Reserve equal to the Government Grant recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/(deficit)

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus/(deficit)

4.2 Capitalisation Reserve

On the implementation of GAMAP/GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of property, plant and equipment have been transferred to a Capitalisation Reserve instead of the accumulated surplus/(deficit) in terms of a directive (budget circular) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/(deficit).
The balance on the Capitalisation Reserve equals the carrying value of the items of property, plant and equipment financed from the former legislated funds. When items of property, plant and equipment are depreciated, a transfer is made from the Capitalisation Reserve to the accumulated surplus/(deficit).

When an item of property, plant and equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the accumulated surplus/(deficit).

4.3 Donations and Public Contributions Reserve

When items of property, plant and equipment are financed from public contributions and donations, a transfer is made from the accumulated surplus/(deficit) to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the

Donations and Public Contributions Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from donations and public contributions.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the accumulated surplus/(deficit).

5. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, is stated at cost, less accumulated depreciation, except land and buildings, which are revalued as indicated below. Heritage assets which are culturally significant resources and which are shown at cost, are not depreciated owing to the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets was measured at its fair value, if the acquired item could not be measured at its fair value, its cost was measured at the carrying amount of the asset given up.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

Depreciation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. The annual depreciation rates are based on the following estimated asset lives:-

	Years		Years
Infrastructure		***Other***	
Roads and Paving	30	Buildings	30
Pedestrian Malls	30	Specialist vehicles	10
Electricity	20-30	Other vehicles	5
Water	15-20	Office equipment	3-7
Sewerage	15-20	Furniture and fittings	7-10
		Watercraft	15
Community		Bins and containers	5
Buildings	30	Specialised plant and equipment	10-15
Recreational Facilities	20-30	Other items of plant and equipment	2-5
Security	5	Landfill sites	15

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

6. INVESTMENTS

6.1 Financial Instruments

Financial instruments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are stated at cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

7. INVENTORIES

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value. In general, the basis of determining cost is the weighted average method.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values.

8. ACCOUNTS RECEIVABLE

Accounts receivable are carried at anticipated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Bad debts are written off during the year in which they are identified. Amounts that are receivable within 12 months from the reporting date are classified as current.

9. TRADE CREDITORS

Trade creditors are stated at their nominal value.

10. REVENUE RECOGNITION

10.1 Revenue from Exchange Transactions

Service charges relating to electricity and water are based on consumption. Meters are read on a quarterly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

Service charges from sewerage and sanitation are based on the number of sewerage connections on each developed property using the tariffs approved from Council and are levied monthly.

Interest and rentals are recognised on a time proportion basis.

Dividends are recognised on the date that the Municipality becomes entitled to receive the dividend.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licences and permits.

Revenue from the sale of goods is recognised when the risk is passed to the consumer.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use. Where public contributions have been received but the municipality has not met the condition, a liability is recognised.

10.2 Revenue from non-exchange transactions

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received, together with an estimate of spot fines and summonses that will received based on past experience of amounts collected.

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into use.

10.2 Revenue from non-exchange transactions (continued)

Contributed property, plant and equipment is recognised when such items of property, plant and equipment are brought into use.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

11. CONDITIONAL GRANTS AND RECEIPTS

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

12. PROVISIONS

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the provision can be made. Provisions are reviewed at reporting sheet date and adjusted to reflect the current best estimate. Non-current provisions are discounted to the present value using a discount rate based on the average cost of borrowing to the Municipality.

13. CASH AND CASH EQUIVALENTS

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and investments in financial instruments, net of bank overdrafts.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred.

14. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

15. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

16. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

17. COMPARATIVE INFORMATION

17.1 Current year comparatives:

Budgeted amounts have been included in the annual financial statements for the current financial year only.

17.2 Prior year comparatives:

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

// KHARA HAIS LOCAL MUNICIPALITY
ENCDURAGED ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2006

1. INVESTMENTS

1.1 Where the carrying amount of an investment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

1.2 Investments in Securities

Investments in securities are recognised on a trade date basis and are initially measured at cost.

At subsequent reporting dates, debt securities that the Municipality has the expressed intention and ability to hold to maturity (held-to-maturity debt securities) are measured at amortised cost less any impairment losses recognised to reflect irrecoverable amounts. The annual amortisation of any discount or premium on the acquisition of a held-to-maturity security is aggregated with over investment income receivable over the term of the instrument so that the revenue recognised in each period represents a constant yield on the investment.

Investments other than held-to-maturity debt securities are classified as either held for trading or available-for-sale, and are measured at subsequent reporting dates at fair value, based on quoted market prices at the

reporting date. Where securities are held for trading purposes, unrealised gains and losses are included in the net surplus/(deficit) for the period. For available for sale investments, unrealised gains and losses are recognised directly in net assets, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in net assets is included in the net surplus/(deficit) for the period.

1.3 *Investments in Derivative Financial Instruments*

Derivative financial instruments are initially recorded at cost and are remeasured to fair value at subsequent reporting dates.

Changes in the fair value of derivative financial instruments that are designated and effective as cash flow hedges are recognised directly in accumulated surpluses/(deficits). Amounts deferred in net assets are recognised in the Statement of Financial Performance in the same period in which the hedged firm commitment or forecasted transaction affects net surplus/(deficit).

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Financial Performance as they arise."

2. LEASES

The Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment subject to finance lease agreements are capitalised at their cash cost equivalent and the corresponding liabilities are raised. The cost of the item of property, plant and equipment is depreciated at appropriate rates on the straight-line basis over its estimated useful life. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are expensed as they become due.

The Municipality as Lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the Municipality's net investment in the leases. Finance lease or instalment sale income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

3. RETIREMENT BENEFITS

The municipality provides retirement benefits for its employees and councillors. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued triennially on the projected unit credit method basis. Deficits identified are recognised as a liability and are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities.

4. BORROWING COSTS

Borrowing costs are recognised as an expense in the Statement of Financial Performance.

	2006	2005
	R	R
1 HOUSING DEVELOPMENT FUND		
Housing Development Fund		
Loans extinguished by Government on 1 April 1998	38,292,789	38,292,789

16 PROPERTY RATES

Residential	18,866,897	17,386,000
Commercial	7,433,357	1,542,669
State	2,064,215	2,359,381
Total Assessment Rates	28,364,469	21,288,050

Valuations

	Jul-2006	Jul-2005
	R000's	R000's
Residential	1,215,754,180	1,078,106
Commercial	58,944,490	15,510
State	95,600,220	37,892
Municipal	1,800,000	1,555
Total Property Valuations	**1,381,698,890**	**1,133,063**

Valuations on land and buildings are performed every four years. The last valuation came into effect on 1 July 2001. Interim valuations are processed on a quarterly basis to take into account changes in individual property values due to alterations and subdivisions. A general rate of R0.017 (2004: R0.016) is applied to property valuations to determine assessment rates. Rebates of 20% are granted to residential and state property owners. Rates are levied on an annual basis on property owners. Rates are levied on an annual basis with the final date of payment being 30 November 2005 (2004: 30 November). Interest at 18% per annum (2004: 18%) is levied on outstanding rates as well as a 10 % (2004: 10%) collection charge two months after final date of payment

17. SERVICE CHARGES

Sale of electricity	58,103,887	57,851,533
Sale of water	24,157,970	23,367,147

Note 10.1 on page 14

The Municipality has taken advantage of the transitional provisions set out in GAMAP 17
The Municipality is ijn the process of itemizing all infrastructure and community assets and will recalculate depreciation once this exercise has been completed by 30 June 2007 At present depreciation on these assets is calculated on an averaging basis whereby an average useful life has been estimated for each category of infrastructure and community asset, using global historical costs recorded in the accounting records. Furthermore, the Municipality has not assessed whether items of property, plan and equipment are impared It is expected that an assessment of imparments will be done by 30 June 2007

Assets are recordeed in an asset register, at cost, on receipt of item. Cost of a asset is defined as the total cost acquisition Assets procured in previous financial period, may be stated at fair valeu, where determined, or R1 instanances where the original cost of acqisition of fair value cannot be established No revaluation or impairment of assets is currently recognized in the asset register

Projects(of contruction/development) running over more than one financial year relating to assets, are only bought into asset register on completion of the project and at the total cost incurred over the duration of the project
